STATE BOARD GOVERNANCE

Structure

A Board of Public Education, exercising general supervisory responsibility and in most cases acting on the recommendations of the Superintendent of Public Instruction, has a number of duties prescribed by law concerning the elementary and secondary schools of the state (e.g., accreditation and teacher certification). The control and supervision of the School for the Deaf and Blind also is vested in this board which serves, as well, as the governing board for vocational education.

A Board of Regents is vested with full power, responsibility and authority to supervise, coordinate, manage and control the Montana University System and also to supervise and coordinate the community colleges.

The members of the Board of Public Education and the Board of Regents, meeting together, form a State Board of Education which has responsibility for submitting unified budget requests, for long-range planning and for coordination and evaluation of policies and programs for the state's educational systems. The Governor serves as president of and the State Superintendent as secretary to the State Board of Education.

Membership

The Board of Public Education and the Board of Regents each have seven voting members appointed by the Governor with the consent of the Senate. Neither board may have more than four voting members from the same congressional district nor from the same political party or organization. The term of office for appointed members is seven years.

The Governor, Superintendent of Public Instruction and Commissioner of Higher Education serve as ex officio, non-voting members on both boards.

BOARD OF PUBLIC EDUCATION*

Governor Thomas L. Judge . . . . . .ex officio
Superintendent of Public Instruction Dolores Colburg . . . . . .ex officio
Commissioner of Higher Education Lawrence K. Pettit . . . . . .ex officio

Community Colleges		3
Total Operating Public Schools, November 1, 1974		847

DIRECTORY GUIDE
TO
PUBLIC ELEMENTARY AND SECONDARY SCHOOLS

On the following pages, Montana counties are listed alphabetically. The elementary school districts located in the county are listed in numerical sequence and the high school districts are listed in conjunction with the elementary district in which the high school is located. County high schools are listed immediately following the elementary districts in which they are located.

The information for each school district is divided into five parts: (1) school district data, (2) school administrator and school telephone, (3) school name and address, (4) number of certified staff and (5) number of pupils as of October 1, 1974.

The first column, **School District Data,** lists the school district number, the state office identification code, the classification of the elementary school district, the district's post office address and the chairman's name and address. The school district number appears in bold type and is followed by a four-digit number assigned by the Superintendent of Public Instruction. This identification number is for reference use by staff members and for computer programs of the Office of the Superintendent of Public Instruction. The district classification appears in parentheses. A first class district has a population of 6,500 or more; a second class district has a population of between 1,000 and 6,500; and a third class district has less than 1,000 residents. The community shown under the school district number is the post office address for all mailing purposes in the district unless another post office address is indicated under an individual listing. The person named in this column is always the chairman of the board of trustees.

When an elementary district and a high school district operate an accredited junior high school, the "Junior High School" identification will appear in the first column.

Joint school districts are identified in the first column by listing the counties involved in the district and the county of the school's location.

The second column, **School Administrator** and **School Telephone,** lists the name of the school administrator and the school telephone number of the administrator. The "Superintendent" is the administrator of the school district listed in the first column. The "Principal" or "Supervising Teacher" is the administrator of the school listed in the third column. If a school district does not have an administrator, only the telephone number of the school is shown.

The third column, **School Name** and **Address,** identifies each operating school in the school district and the address of the school.

The fourth column, **Full-Time Equivalent Certified Staff,** lists as of **October 1, 1974** the number of certified staff members in each school. (Part-time staff and staff members serving multiple schools are included in the full-time equivalent total, computed for the portion of the time they serve in each school.) "Certified staff" includes such positions as teachers, principals, superintendents, librarians, counselors, instructional supervisory staff and administrative assistants. The numbers listed opposite the boldface **"Totals"** are the total number of certified staff in each school district that contains more than one school. A school noted as "Non-Operating" is one that closed during the 1974-75 school year. The fifth column, **Pupils,** lists the total number of pupils in each school.

An alphabetical index in the back of the directory lists all Montana school districts including mailing addresses, counties and the page number for directory listing.
